Discover the SeatonHill Difference

Proven Expertise:

Our CFOs have decades of experience navigating the complexities of the insurance landscape, with a nuanced understanding of the competitive environment, regulatory compliance, capital and risk management, and industry-specific financial planning.

Strategic Vision:

Our Insurance CFOs don't just crunch numbers; they craft strategies. We bring a proven track record of optimizing financial performance, providing financial leadership to influence future direction, and executing strategic priorities.

Experienced Leadership:

Finance organizations are responsible for providing services to the rest of the organization, including FP&A, treasury, tax, and other finance functions. Our CFOs are adept at operating the finance team efficiently and effectively while mentoring and growing talent.

Stakeholder Management:

One of the key roles of the CFO is being the face of the organization to key stakeholders, including owners/shareholders, boards of directors, regulators, and rating agencies. Our Insurance CFOs have a demonstrated ability in successfully managing stakeholder relations with clear and timely communication of financial results, trends, risks, and issues that impact the business.

Flexibility to Meet Your Needs

Whether you need on a fractional basis to provide ongoing support or for an interim period to lead during a transition, we have the talent available to meet your specific needs.

Cost-Efficiency:

Our fractional CFOs give you access to top talent without the overhead costs of hiring an expensive, full-time Insurance CFO.

Immediate Impact:

Our experts hit the ground running, without a lengthy onboarding process, ensuring a swift and seamless integration into your team.

Ready to Elevate Your Insurance Business?

With a deep bench of talent, we are at-the-ready to provide your company with the leadership it deserves to guide your business and augment bottom-line results.

Let's start a conversation.
